

World Bank eLibrary Frequently Asked Questions

What is the World Bank eLibrary?

The World Bank eLibrary is the World Bank's collection of 6,000+ books, reports, journals, and working papers including:

- *Development Outreach*, *World Bank Economic Review* and *World Bank Research Observer* journal articles published since 1996
- Development Economics (DEC) policy research working papers published since 1995
- e-books and reports (dating as far as the 1970's in some cases) plus all new formal publications upon release

All content can be viewed online and downloaded free of DRM (with the exception of a watermark). eLibrary is available to institutions by subscription and access is via IP authentication.

Who subscribes to the World Bank eLibrary?

World Bank eLibrary is used by the world's top academic, policy, and corporate researchers, including all UN agencies. It is very useful for librarians, students, professors, government agencies, and development professionals who use World Bank knowledge and research in their work.

Why should I subscribe to the World Bank eLibrary?

eLibrary is **focused on the unique needs of the library, research, and academic communities**. Publications and searches may be **saved** in individual user accounts* for long-term research projects. eLibrary **saves valuable time, money, and resources** by offering researchers all published World Bank titles in **one convenient database**. Only those publications that are the final version of record and are of most interest to academic researchers are included in eLibrary.

In addition, eLibrary offers a number of other **useful tools and features for researchers and libraries** including:

- Options to export to Endnotes and BibTex
- One-click social bookmarking icons for sharing pages and abstracts as well as search and browse results
- Downloadable metadata and MARC records for easier indexing and cataloging
- COUNTER compliant usage statistics including usage by content type, including consortia reports
- Browse by content type, topic, keyword, series, and other metadata
- Customized new content alerts and RSS feeds based on user preferences
- Athens and Shibboleth authentication
- Institutional branding on the eLibrary home page
- Open URLs

*Users may register for their own individual account, allowing them to save, modify, search within, email, export, and set up new content alerts that match their search results. Search History is accessible during each user session.

How is eLibrary different than content on the Bank's main website?

Among the major differences between accessing this content in eLibrary vs. the Bank's main web site is that eLibrary is **focused on the needs of the librarian, researcher, professor or student**. For example, eLibrary allows

users to **save, email, export, modify, search within**, and **share search results**. **Search history** is accessible during each user session and option to export to citation tools are available.

The **quality and convenience** of the eLibrary's highly efficient search engine **save researchers valuable time**. The World Bank eLibrary contains only the **final published** versions of the Bank's formal publications. Each article, book, and working paper is enriched with **semantic and bibliographic metadata**, including topics, regions, countries, abstracts and key words using a controlled vocabulary allowing for easier discovery. **Quick Search** searches all metadata in order to return **highly relevant results** across all content types in a hurry. **Advanced Search** makes it possible to include or exclude full text, specified search terms, and the metadata classifications.

Why should I register for an Individual User account?

An Individual User account allows you to take advantage of several eLibrary benefits. Registration is **free, quick, and easy** and allows you to...

- purchase individual titles if you are not a subscriber
- save and organize searches
- export search results
- email and share your Search History
- bookmark your Favorites
- sign up for new content alert emails and RSS Feeds based on your preferences.

How much does it cost to subscribe to eLibrary?

World Bank eLibrary subscriptions are only available to institutions. Pricing is based on the **FTE or total number of authorized users at any given time** – not on the number of concurrent users. Access is granted via IP authentication and includes unlimited access across subscribing institutions.

To request a free trial access or a price quote, please e-mail our Customer Service team at onlineresources@worldbank.org or contact your preferred subscription agent. When requesting a quote, please specify:

- The name of your organization
- Total number of FTE (Full-Time Equivalent, i.e. all students, faculty, and staff within your institution); for Public Libraries, total population served; for Corporations /other institutions, the total number of authorized users (i.e. the total number of persons who will have access to the eLibrary at any given time).
- The type of organization (academic, government, corporation, nonprofit, etc.)
- The country in which your organization is located (to see if your country qualifies for geographic discounts, click [here](#).)

Can I subscribe to World Bank eLibrary as an individual?

Subscriptions to World Bank eLibrary are not available to individuals. However, individuals and non-subscribers may search, view abstracts, access any free content, and purchase any paid content in eLibrary. Simply click the link at the bottom of any abstract page and purchase with a credit card. Once downloaded, the content is available for use in perpetuity.

Most books in eLibrary can also be purchased in print from The World Bank online store at <http://publications.worldbank.org/ecommerce>. You may also click on the **Buy Print Copy** link within the info box. If online purchase is not convenient, books can be purchased from our world-wide network of distributors, listed [here](http://go.worldbank.org/6XBJT3DJA0) (<http://go.worldbank.org/6XBJT3DJA0>).
