The World Bank eLibrary is the Bank's subscription-based online collection of 8,000+ ebooks, reports, journals and working papers on international development and economics. It is focused on the unique needs of the library, research and academic communities, and offers value-added through its **functionality, ease of use, and many time-saving tools.**

Top 5 Reasons to Subscribe

RESEARCH TOOLS AND CONVENIENCES	• Researchers save valuable time with full text search, bookmarking, savable search results, citation tools and more
LIBRARY INTEGRATION TOOLS	• eLibrary subscribers receive free MARC records and alerts, downloadable metadata, and COUNTER-compliant reporting
FULL COLLECTION WITH NO EMBRAGOES	• eLibrary contains the full collection of World Bank publications since the 1990s plus access to World Bank journal articles with no embargoes
INDEXING AND DISCOVERY SERVICES	• eLibrary is partnering with many Search and Discovery services such as Primo Central, EBSCO A to Z, Summons, Serial Solutions and OCLC/Worldcat
COMING SOON! eLIBRARY 2.0	• eLibrary 2.0 will offer the ability to search and save World Bank content at the chapter level and many more tools and conveniences for researchers.

CURATED CONTENT

eLibrary content is carefully **curated and includes** only those publications that are of most interest to academic researchers and contains all final versions of the Bank's formal publications. This **saves researchers valuable time** by taking them straight to the content they need**.** eLibrary content covers important global issues that shape our world today, including...

- economic development
- climate change
- labor markets
- trade
- emerging markets

- education
- food security
- fragile states and conflict
- health
- poverty

NO EMBARGOES

The World Bank eLibrary offers all formally published works from 1990 for a total of approximately 8,000 works. This includes books, *World Bank Economic Review (WBER),World Bank Research Observer (WBRO journals), Development Outreach* magazine, flagship reports, and Policy Research Working Papers, plus all new publications as they are released. **There are no embargoes on content appearing in eLibrary.**

eLibrary Content		
Content Type	**Content coverage**	**Number of documents**
Books	From 1990 to present	2,600+
Policy Research Working Papers (PRWP)	From 1995 to present	4,600+
Journal articles from the *World Bank Economic Review* (WBER) and *World Bank Research Observer* (WBRO)	From 1995 to present without embargo	700+

DESIGNED WITH RESEARCHERS AND LIBRARIES IN MIND

The World Bank eLibrary is specifically designed to meet the needs of researchers, professors and students, as well as librarians, development professionals, and regular users of World Bank research outputs and knowledge products. Users benefit from the ability to use content within the eLibrary platform and their library's ecosystem, as well as citation tools.

For users:
- Full text and metadata-based search
- Profile-based features so users can bookmark favorites for later sessions; save search results; and email, export, and set up new content alerts that match their interest
- Citation and reference tools including options to export references to EndNote and BibTex
- Convenient icons for emailing and sharing pages, abstracts, and search and browse results via social media
- Browse by region, topic, series, and publication type

For Librarians:
- Library integration tools and services such as MARC records and new MARC record alerts
- Downloadable metadata for easier cataloging
- SUSHI- and COUNTER-compliant reporting
- Institutional branding on the eLibrary home page
- Athens and Shibboleth authentication
- Open URLs and DOIs
- Indexed in discovery services such as EBSCO A to Z, Serials Solutions, Syndetic Solutions, ExLibris Primo, and WorldCat

DEDICATED CUSTOMER SERVICE AND SUPPORT

eLibrary offers full customer support. This includes a technical support team, as well as a dedicated Customer Service account. In addition, eLibrary offers a global team of agents and representatives who are available to assist eLibrary subscribers at any time.

COMING SOON!   **eLIBRARY 2.0**

The new version of eLibrary will be XML-based, allowing users to access books and reports at a **more granular level (by chapter) and will offer even more conveniences for subscribers and users.** In addition to its existing tools and features, the new eLibrary will include:

- Improved search (e.g., granular results) and browse functionalities
- Access to eLibrary via mobile devices, allowing even more flexibility for sharing, using, and re-using the Bank's research
- Ability to create "custom ebooks" from eLibrary content for course packs
- Improved citation and reference tools
- Integration of World Bank data, including World Development Indicators
